CUSTOMER TESTIMONIALS 1) AMS had the parts that were very difficult to find! 2) Their price was very reasonable (unlike other vendors). 3) Their low free shipping threshold was much appreciated. 4) Their shopping cart was easily edited. 5) I did have some difficulty navigating the site, but that wont inhibit my shopping with AMS in the future. I would invite AMA to send me periodic updates when they make revisions to their navigation and format (with the usual ease of unsubscribing, of course). Regards, Norm
